How it works.

Centre County Farm Routes are a whole new way to get to know the hands and lands that feed us!

Use this map to guide you on a fun, flavorful exploration of the farm-fresh delicious food, drink and views found along Centre County's country roads.

While the pandemic suspended the annual Centre County Farm Tour for 2020 and 2021, we invite you to safely explore the county's farm corridors – Farm Routes!

Use this map-guide to create your own self-guided driving route at your own pace, any time. Take a quick visit, a half-day, a full day and go as often as you'd like!

Featured locations are farm stores on working farms, preserved farmland, eateries that feature local foods, farmers' markets, agricultural heritage sites - and a few extras for your convenience.

Most importantly: Please be safe. Please observe all public health guidelines to reduce the risk of spreading COVID-19.

What's a "preserved" farm?

That means a legal restriction is in place to maintain the property as farmland forever.

That's where the Centre County Farmland Trust comes in.

The mission of the Centre County Farmland Trust is to save valuable farmland and preserve the county's agricultural roots. The trust, a non-profit organization, works with owners of farmland on preservation easements.

One way CCFT works to fulfill its preservation mission is to promote farms, farmers and the local food system.
